EXPERIENCE

HEAD Lab, London — *Undergraduate Research Opportunity*
August 2026 - September 2026

Contributed to ongoing research within the HEAD Lab, including mechanical design work on a pneumatic catch and recovery system for the HIPER helmet rating test rig and presenting a workshop for manufacturers, retailers and cyclists.

GEM Cable Solutions, St Albans — *Engineering Assistant*
September 2024 - Present

Working with clients from a variety of industries including Aerospace, F1 and Defence to produce quotations from technical drawings and helping to manage production in the clean room in accordance with aerospace standards (AS9100D).

JK Engineering, King's Langley — *Work Experience*
August 2022

Worked alongside precision manufacturing processes for high-profile, tolerance-critical industries, gaining hands-on exposure to CNC lathes, mills, EDM machinery, and a strong grounding in quality control.

PROJECTS

Intensive Care Unit Rehabilitation Device, A-Level DT
Designed a device to help ICU patients counter muscular atrophy, foot drop and deep vein thrombosis. Developed with input from an occupational therapist and a survey of 50+ medical professionals.

Eames Kneeling Chair, Personal Project
Designed a rocking kneeling chair combining the Varier Variable's geometry with Eames-style moulded plywood shells. P5/P95 anthropometric checks exposed a foot clash and drove a frame redesign; FEA in Fusion 360 under BS EN seating test loads.

WiFi-Controlled RC Car, Electronics 1, Imperial
Built a phone-controlled car with adjustable suspension for a Maybach-style bounce and underbody lights that react to nearby music.

EDUCATION

Imperial College London, Kensington — *MEng Design Engineering*
October 2025 - Present

Year 1: 74.25% (First)

Merchant Taylors' School, Rickmansworth
September 2019 - July 2024

A-Levels: Maths - A*, Physics - A*, Design & Technology - A*

GCSEs: 9 x Grade 9, 1 x Grade 8, 1 x Grade A

SKILLS

Confident using Office 365 and Adobe Suite products, as well as Autodesk Fusion 360 CAD software, SolidWorks and Python.

Proficient in a wide range of CNC and manual manufacturing methods, including 3D Printing, Laser & Plasma Cutting, CNC Milling, Manual wasting methods and MIG Welding.

INTERESTS

Bike Restoration
Restored a 1980s Raleigh Scorpio steel road bike to working condition for training and commuting.

Charity work - Phab
September 2022 - July 2024

Volunteer carer and fundraiser for a charity supporting young people with disabilities through a residential activity week.

Rugby
Played from an early age and continue to represent both University and my local men's 1st XV team.

Travel
Visited 12 different countries throughout Asia and South America, as part of a 5-month solo trip.
